Petrobras Accelerates Toward Automation and Internal Customer Experience with Support from Wipro and ServiceNow

Aims to maximize availability of technology infrastructure, control cost of IT assets and optimize IT service management to improve the experience of internal users as the company continues on its transformation journey

São Paulo, Brazil, and Bangalore, India – June 8, 2022. Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting, and business process services company, together with [ServiceNow](#), announce that they will contribute to Petrobras, the largest publicly traded company in Brazil and one of the largest oil, natural gas and derivatives exploration, production and distribution companies in the world, to advance its digital journey.

The project aims to raise the level of service for internal users and reduce costs by modernizing and aligning IT infrastructure processes with the business through a modern cloud solution focused on automation and integration. The project scope is related to maintaining IT assets, systems updates, and digitizing processes.

"We want to ensure that the volume of information generated by the company's operations is processed even more intelligently and safely, contributing to decision-making in an agile and assertive manner. Petrobras' investment in digital transformation and innovation, which aims to add value to the business, also meets the company's demand for digitalization of corporate processes," said **executive ICT manager at Petrobras, Marcelo Carreras**.

Douglas Silva, Vice President and Country Manager, Brazil, Wipro Limited said: "We are very excited to be able to collaborate with the modernization of IT processes at Petrobras, one of the largest conglomerates in the world. We want to help the company in its mission to drive digital transformation through Hyper-automation which is the union of technologies for process automation through tools such as artificial intelligence and machine learning, in addition to significantly improving the experience of its employees."

The Wipro solution will also provide greater availability of technology infrastructure, visibility, and cost control of IT assets, supporting the long-term growth of Petrobras' business.

About Petrobras

Petrobras is a Brazilian company committed to being the best energy company in generating value, focusing on oil and gas, sustainability, safety and respect for people and the environment. The company is one of the largest oil and gas producers in the world, operating mainly in exploration and production, refining, marketing and energy generation. With a large base of proven reserves and experience in exploration and production in deep and ultra-deep waters, the company is recognized worldwide for the excellence in its operations. Forward-Looking Statements

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry.

Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
