Wipro earns Analytics on Microsoft Azure Advanced Specialization

Specialization demonstrates Wipro's ability to deliver customer-centric data insights

New York, USA and Bangalore, India – March 01, 2022: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a global leader in information technology, consulting and business process services, today announced that it has earned the Analytics on Microsoft Azure advanced specialization. This specialization validates Wipro's capabilities in planning and delivering tailored analytics solutions, following Microsoft and industry best practices.

Wipro received the advanced specialization after meeting stringent criteria around customer success and staff skilling, as well as passing a third-party audit of its analytics planning and deployment practices.

While more businesses have begun to recognize the value of effective data and analytics strategies, implementation remains challenging. Wipro has shown that its proven experience delivering customized Microsoft analytics solutions using Azure Synapse Analytics, Azure Data Lake, Azure Data Factory, and Azure Databricks leaves it well-positioned to support the growing data analytics needs of its customers and capture growing market opportunities.

"This specialization is a validation of our technical and process proficiency in the Data and Analytics space and is critical to deliver on the promise of Wipro Fullstride Cloud Services. It also comes as a result of our commitment to a global partnership with Microsoft and towards helping businesses of all sizes realize their full potential through Azure-based analytics technologies," said **Don McCormick, Vice President & Global Partnership Lead - Microsoft, Wipro Limited.**

"Organizations today are on an exciting journey to unlock the value of data through insights and Artificial Intelligence (AI). At Wipro, we have been helping customers build an intelligent ecosystem leveraging trustworthy AI across business processes, supported by actionable insights and powered by curated data. With our comprehensive suite of offerings, solutions and IPs, that are all Azure ready, we are ensuring that customers are able to accelerate their data to decisions journey. The Analytics on Azure advanced specialization is a testimony to our already proven expertise in Data and Analytics and will help us advance our two-decade old partnership with Microsoft to the next level," said **Harish Dwarkanthalli, President - Applications & Data, iDEAS-Apps and Data.**

"The Analytics on Microsoft Azure advanced specialization highlights the partners who can be viewed as most capable when it comes to building transformative and secure analytics solutions on Azure. Wipro clearly demonstrated that they have both the skills and the experience to help our customers harness the power of insight and transform their businesses in a scalable, secure, and cost-effective way," said **Rodney Clark, Corporate Vice President, Global Partner Solutions, Channel Sales and Channel Chief, Microsoft.**
