Wipro earthian awards 2020 felicitate excellence in sustainability education

Bangalore, India – February 15, 2021: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company, organized the tenth edition of the Wipro earthian awards for the year 2020 on Saturday, February 13, 2021. The annual awards recognize excellence in sustainability in education in schools and colleges in India.

Wipro earthian is one of India's largest sustainability education programs for schools and colleges. The 2020 edition of the Wipro earthian program received over 900 project entries, out of which winning entries from 20 schools and 8 colleges were selected by an independent jury.

The teams from schools demonstrated their understanding of biodiversity, waste and water through activity based learning programs and written essays. The teams from colleges submitted journalistic entries on the themes of water, waste and agriculture in the urban sustainability context.

The Wipro earthian awards have seen a threefold increase in the number of participants since its inception in 2011. The program has engaged with over 55,000 schools and colleges, 130,000 students and 13,000 teachers from across India. The support from Wipro's education partners across the country has helped expand the reach of the program.

The winning institutes were felicitated by Wipro Chairman Rishad Premji at a virtual event held on Saturday. They will receive a certificate along with a cash prize. They will also get an opportunity to engage with Wipro and its sustainability partners through continuous collaborative programs that will enable a deeper understanding of issues critical to sustainability.

The virtual event featured a keynote talk by David Quammen, world renowned author and science journalist who talked about his research and insights into the delicate balance of biodiversity and how pandemics like COVID-19 originate when we disturb that balance. The event also had Jadav "Molai" Payeng, Forest Man of India sharing his journey through a recorded interview and 9 year old Licypriya Kangujam who shared her message with the students on her journey of becoming a climate activist at a young age. The day concluded with the 2020 National Finals of the Wipro earthian Sustainability Quiz, hosted by noted quizmaster, Lloyd Saldana from Greycaps India Pvt Ltd.

On this occasion, **Anurag Behar, Chief Sustainability Officer, Wipro Limited** said, "Wipro earthian is our flagship program that seeks to encourage young minds across the country to think and act in a more sustainable manner. Started in 2011, it has been a remarkable 10 years in which we have seen the program grow and evolve on multiple dimensions. Seeing young students

from across the length and breadth of the country engage with sustainability with so much zeal and passion gives us reason for hope.”

The list of winning teams at Wipro earthian awards 2020 can be accessed [here](#).

Forward-looking and Cautionary Statements

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry. The conditions caused by the COVID-19 pandemic could decrease technology spending, adversely affect demand for our products, affect the rate of customer spending and could adversely affect our customers' ability or willingness to purchase our offerings, delay prospective customers' purchasing decisions, adversely impact our ability to provide on-site consulting services and our inability to deliver our customers or delay the provisioning of our offerings, all of which could adversely affect our future sales, operating results and overall financial performance. Our operations may also be negatively affected by a range of external factors related to the COVID-19 pandemic that are not within our control.

Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time,

make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
