1. Company's Charter on Corporate Social Responsibility

At Company, we think that it is critical to engage with the social and ecological challenges that humanity is facing. It is our conviction that engagement with social issues must be deep, meaningful and formed on the bedrock of long-term commitment; for that is the only way by which real change can happen on the ground. It is also reflective of the fact that such an approach serves both, enlightened business interest and social good. We run our social programs on a strong foundation of ethical principles, good governance and sound management. This includes, among other things, holding ourselves up to public scrutiny through a framework of transparent, rigorous reporting.

2. Definitions

"CSR Activities" shall mean the projects and / or programmes undertaken by the Company either directly or indirectly pursuant to Applicable Laws in accordance with this CSR Policy.

"Implementation Agencies" any other trust, society or company or any entity established under an Act of parliament or a state legislature or any other agency which is eligible to undertake CSR Activities, on behalf of the Company in compliance with the Applicable Laws and includes the Principal Implementation Agency.

"Principal Implementation Agency" means Wipro Cares, is an employee-led community initiative arm of the Wipro Foundation and engages in Education, Primary Healthcare, Community Ecology, and Disaster Response in proximate communities.

"Rules" means Companies (Corporate Social Responsibility Policy) Rules, 2014, or any other rules prescribed under section 135 of the Act and pertaining to corporate social responsibility, as may be amended and prescribed, from time to time.

3. Company's CSR Policy

Company's engagement with social and ecological issues goes back a long time. The central tenets of our approach have been the emphasis on strong, meaningful work on systemic social issues. Our CSR policy articulated below therefore reflects these principles and strategies that have informed our long history of corporate citizenship and social responsibility over the years. *(The Annexure to this policy provides more details on our CSR initiatives)*

At Company, we think that the first and foremost responsibility of an organization is to run its business ethically and in compliance with the law in letter and spirit. Our framework of ethical business starts with a set of foundational values as embodied in Spirit of Wipro and comprises, at the least, the following three principles:

- Unyielding integrity in every aspect of business;
- Treating people everywhere fairly and with respect – at the workplace as well as in communities outside; and
- Demonstrating ecological sensitivity in thought and action.

Our approach to social responsibility and sustainability rests on three important pillars

- **The Strategic:** We choose domains and issues to engage with that are force multipliers for social change and sustainable development. Social responsibility is as much about being a sustainable organization as it is about external initiatives. Therefore, some of our areas of engagement lie at the convergence of business goals and social purpose.
- **The Systemic:** Within the chosen domains, we choose to engage on systemic issues that require deep, meaningful and challenging work. Given the nature of social change, this implies commitment over the long term, typically for several decades because genuine change does take that long to occur.
- **The Deliberative:** Our emphasis on depth and on long term commitment implies a deliberative approach that precludes spreading ourselves thin or engaging in ‘cheque book philanthropy’. By implication, this also means that we are wary of expanding and growing our social programs as ends in themselves. We will continue to adhere to this approach going forward.
