Special Purpose Financial Statements and Independent Auditor's Report

Wipro Technologies W.T Sociedad Anonima

31 March 2023

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Wipro Technologies W.T Sociedad Anonima

Report on the Audit of the Special Purpose Financial Statements

Opinion

We have audited the accompanying special purpose financial statements of Wipro Technologies W.T Sociedad Anonima ("the Company"), which comprise the Balance Sheet as at 31 March 2023, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "the Special Purpose Financial Statements"). As explained in Note 2(a) to the Special Purpose Financial Statements, these Special Purpose Financial Statements include limited information and have been prepared by the Management of Wipro Limited ("the Parent") solely for inclusion in the annual report of Wipro limited for the year ended 31 March 2023 under the requirements of section 129(3) of the Companies Act, 2013, in accordance with the accounting policies of the Parent and in compliance with the recognition and measurement principles laid down in Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements give a true and fair view in conformity with the basis of presentation referred to in Note 2(a) to the Special Purpose Financial Statements, of the state of affairs of the Company as at 31 March 2023, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India (ICAI) and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Special Purpose Financial Statements.

Material Uncertainty Related to Going Concern

We draw attention to note 2(a) to the accompanying financial statements which indicates that the Company has incurred a loss of CRC 157.96 millions during the current year and has accumulated loss of CRC 5407.60 millions as at 31 March 2023. These events or conditions indicate that a material uncertainty exists which may cast a significant doubt on the Company's ability to continue as going concern. However, basis the ongoing support of the Ultimate Holding Company and the ongoing assessment of business opportunities, the management considers going concern basis of accounting for preparation of accompanying financial statements to be appropriate. Our opinion is not modified in respect of this matter.

Basis of Accounting and Restriction on Use

Without modifying our opinion, we draw attention to Note 2(a) to the Special Purpose Financial Statements, on the basis of the preparation to the special purpose financial statements. The Special Purpose Financial Statements are prepared for inclusion in the annual report of the Ultimate Holding Company under the requirements of Section 129(3) of the Companies Act, 2013. As a result, the Special Purpose Financial Statements may not suitable for any other purpose. Our report is intended solely for the Company and Wipro Limited and should not be distributed to or used by parties other than the Company and Wipro Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company, the Company's and ultimate holding company's board of directors, for our audit work, for this report, or for the opinions we have formed.

Management Responsibility for the Special Purpose Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance and total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards (Ind AS) prescribed under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances on whether the company has adequate internal financial controls with reference to the special purpose financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern; and

- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Wipro Technologies W.T Sociedad Anonima

Notes on Accounting Policies for the year ended 31 March 2023

(Amount in CRC except share and per share data, unless otherwise stated)

1. Company overview and significant accounting policies

1.1 Background

Wipro Technologies W.T Sociedad Anonima ("the Company") is a subsidiary of Wipro Information Technology Netherlands BV, incorporated and domiciled in Costa Rica. The Company is provider of IT Services, including Business Process Services (BPS) services, globally and IT Products. The Company's ultimate holding company, Wipro Limited ("Wipro") is incorporated and domiciled in India.

1.2 Summary of significant accounting policies

a) Statement of compliance

The special purpose financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) as notified under Section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 (by Ministry of Corporate Affairs ('MCA'). The Company has uniformly applied the accounting policies during the periods presented.

These special purpose financial statements have been prepared on a historical cost convention and on accrual basis. Accounting policies have been applied consistently to all periods presented in these financial statements.

These special purpose financial statements have been prepared to append with the financial statements of the ultimate holding company, to comply with the provisions of Section 137 (1) of the Companies Act, 2013 ("the Act") in India.

b) Overall considerations

The preparation of the special purpose financial statements in conformity with IND AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

2.Basis of preparation of Special purpose financial statements

a) Basis of preparation of special purpose financial statements

The special purpose financial statements have been prepared on going concern basis under the historical cost basis except for certain financial assets and liabilities which are measured at fair value.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes in to account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these special purpose financial statements is determined on such a basis, except for share based payment transactions that are within the scope of Ind AS 102, 'Share-based Payment', leasing transactions that are within the scope of Ind AS 17, 'Leases', and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 'Inventories', or value in use in Ind AS 36 'Impairment of assets'.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1,2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

Level 1: Quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data rely as little as possible on entity specific estimates.

Level 3: Inputs for the assets or liabilities that are not based on the observable marked data (unobservable inputs)

b) New amended standards and interpretations

i) Ind AS 107 Financial Instruments: Disclosures – Additional disclosures relating to interest rate benchmark reform (IBOR reform) including nature and extent of risks to which the entity is exposed due to financial instruments subject to interest rate benchmark reform and how the Company manages those risks; the Company’s progress in completing the transition to alternative benchmark rates and how the Company is managing the transition.

ii) Ind AS 109 Financial Instruments – Guidance provided on accounting for modifications of contracts resulting from changes in the basis for determining the contractual cash flows as a result of the IBOR reform; various exceptions and relaxations have been provided in relation to the hedge accounting.

iii) Ind AS 116 Leases – Extension of optional practical expedient in case of rent concessions as a direct consequence of COVID-19 pandemic till 30th June, 2022 and guidance on accounting for modification of lease contracts resulting from the IBOR reform.

iv) Ind AS 102 Share based payments – Alignment of liabilities definition with the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India.

v) Ind AS 103 Business Combination – Alignment of assets and liabilities definition with the Framework for Preparation and Presentation of Financial Statements with Indian Accounting Standards

vi) Amendment of definition of term ‘recoverable amount’ in Ind AS 105, Ind AS 16 and Ind AS 36 from ‘fair value less cost to sell’ to ‘fair value less cost of disposal’.

c) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

(i) An asset is classified as current when it is:

• Expected to be realized or intended to sold or consumed in normal operating cycle

• Held primarily for the purpose of trading

• Expected to be realized within twelve months after the reporting period, or

• Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

(ii) All other assets are classified as non-current.

(iii) A liability is classified as current when:

• It is expected to be settled in normal operating cycle

• It is held primarily for the purpose of trading

• It is due to be settled within twelve months after the reporting period, or

• There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

(iv) All other liabilities are classified as non-current.

(v) Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of service and the time between the acquisition of assets for development and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as four years for the purpose of current and non-current classification of assets and liabilities which pertain to the project and for all other assets and liabilities the Company has considered twelve months.

3.Material Accounting Policy Information

a) Foreign currency

Functional currency

The functional currency of the Company is CRC. These financial statements are presented in Costa Rican Colón.

Transaction

The Company is exposed to currency fluctuations on foreign currency transactions. Foreign currency transactions are accounted in the books of account at the exchange rates prevailing on the date of transaction. Monetary foreign currency assets and liabilities at period-end are translated at the exchange rate prevailing at the date of Balance Sheet. The exchange difference between the rate at which foreign currency transactions are accounted and the rate at which they are re-measured/ realized is recognized in the statement of profit and loss.

Foreign currency transactions

Functional and presentation currency

The financial statements are presented in Costa Rican Colón (‘CRC’) which is also the functional and presentation currency of the Company. All amounts have been rounded-off to the nearest 10's, unless otherwise indicated.

(a) Initial recognition

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

(**b) Conversion**

Foreign currency monetary items are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or any other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss in the year in which they arise.

b) Cash and cash equivalents

Cash and cash equivalent in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

c) Financial instruments

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value and transaction cost that is attributable to the acquisition of the financial asset is also adjusted.

Subsequent measurement

Debt Instruments

Debt instruments at amortized cost

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity investments

All equity investments in the scope of Ind AS 109,' Financial Instruments', are measured at fair value. Equity instruments which are held for trading and contingent consideration has been recognized by an acquirer in a business combination to which Ind AS 103,' Business Combinations' applies, are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in OCI with subsequent changes in the fair value.

The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, impairment gains or losses and foreign exchange gains and losses, are recognized in the OCI.

There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

De-recognition of financial assets

A financial asset is primarily de-recognized when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

d) Financial liabilities

Initial recognition

All financial liabilities are recognized initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortized cost.

Subsequent measurement

These liabilities include are borrowings and deposits. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

e) Impairment of financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the twelve month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the statement of profit and loss.

f) Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of profit and loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the statement of profit and loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

g) Equity

i) Share capital

Every holder of the equity shares, as reflected in the records of the Company as of the date of the shareholder meeting shall have one vote in respect of each share held for all matters submitted to vote in the shareholder meeting.

ii) Retained earnings

Retained earnings comprises of the Company's undistributed earnings after taxes.

iii) Other comprehensive income

Changes in the fair value of financial instruments measured at fair value through other comprehensive income and actuarial gains and losses on defined benefit plans are recognized in other comprehensive income (net of taxes), and presented within equity in other reserves.

h) Property, plant and equipment

Recognition and measurement

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset. General and specific borrowing costs directly attributable to the construction of a qualifying asset are capitalized as part of the cost.

Depreciation

The Company depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are available for use. Assets acquired under finance lease and leasehold improvements are amortized over the shorter of estimated useful life of the asset or the related lease term. Term licenses are amortized over their respective contract term. Freehold land is not depreciated. The estimated useful life of assets are reviewed and where appropriate are adjusted, annually. The estimated useful lives of assets are as follows:

Category	Useful Life

Plant & Machinery	2-21 years
Furniture & Fixtures	3-10 years
Office Equipments	3-10 years

De-recognition

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognized.

i) Employee benefits

Compensated absences

The employees of the Company are entitled to compensated absences. The employees can carry forward a portion of the unutilized accumulating compensated absences and utilize it in future periods or receive cash at retirement or termination of employment. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Company measures the expected cost of compensated absences as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company recognizes accumulated compensated absences based on actuarial valuation using the projected unit credit method. Non-accumulating compensated absences are recognized in the period in which the absences occur

Pension and social contribution

Pension and social contribution plan, a defined contribution scheme, the Company makes monthly contributions based on a specified percentage of each covered employee's salary.

j) Provisions and contingencies

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

k) Revenue

The Company derives revenue primarily from software development, maintenance of software/hardware and related services, business process services, sale of IT and other products.

Services:

The Company recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method of recognizing the revenues and costs depends on the nature of the services rendered.

i. Time and material contracts
Revenues and costs relating to time and material contracts are recognized as the related services are rendered.

ii. Fixed-price contracts
Revenues from fixed-price contracts, including systems development and integration contracts are recognized using the "percentage-of-completion" method. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates

iii. Products:
Revenue from sale of products is recognized when the significant risks and rewards of ownership has been transferred in accordance with the sales contract. Revenue from product sales is shown net of excise duty and net of sales tax separately charged and applicable discounts

iv. Other income:
Interest is recognized using the time proportion method, based on the rates implicit in the transaction.

“Unbilled revenue” represent revenues recognised for services rendered in accordance with contractual terms, which have not been billed to the ultimate holding company at the Balance Sheet date. The related billings are performed within the next operating cycle

l) Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use.

All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

The Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalization are determined by applying a capitalization rate to the expenditures on that asset.

The Company suspends capitalization of borrowing costs during extended periods in which it suspends active development of a qualifying asset

m) Finance and other income

Finance and other income comprises interest income on deposits, dividend income and gains / (losses) etc. Interest income is recognized using the effective interest method.

Revenue from sale of products is recognised when the significant risks and rewards of ownership has been transferred in accordance with the sales contract. Revenue from product sales is shown net of excise duty and net of sales tax separately charged and applicable discounts.

n) Operating lease

Leases where the lessor retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating leases are recognized in the statement of profit and loss on a straight-line basis over the lease term. Interest is recognized using the time proportion method, based on the rates implicit in the transaction.

o) Income tax

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to a business combination, or items directly recognized in equity or in other comprehensive income.

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted as at the reporting date and applicable for the period. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and liability simultaneously.

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred income tax assets are recognized to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred income tax liabilities are recognized for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries, associates and foreign branches where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The Company offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable entities where there is an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

p) Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period adjusted for treasury shares held. Diluted earnings per share is computed using the weighted-average number of equity and dilutive equivalent shares outstanding during the period, using the treasury stock method for options and warrants, except where the results would be anti-dilutive.

q) Cash flow statement

Cash flows are reported using the indirect method, whereby profit/(loss) for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

22 Employee Compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The valuation has been carried out using the project unit credit method as per IND AS 19 & IAS 19 to determine the present value of Obligations and the related current service cost and where applicable, past service cost.
Acturial asumptions selected by the company. The Company has been advised that the asumptions selected should be unbiased and mutually compatible and should reflect the company's best estimate of the variables of the future. The company has also been advised to consider the requirements of para 144 of IAS 19 (Revised 2011) and IND AS 19 in this regard.

The financial assumption used in the valuation are Discount rate (per annum) 5.574% and 0.75% for Mar 2022 and Mar 2021 respectively and Salary growth rate (per annum) considered 3% for the first year and 2% thereafter.

Particulars	As at Mar 2023	As at Mar 2022
Current Liability (Short term)	39,794,117	9,201,336
Non Current Liability (Long term)	33,689,395	8,213,025

Notes to the Financial Statements
(Amount in CRC, unless otherwise stated)

23 Events occurring after the reporting date

No adjusting or significant non-adjusting events have occurred between 31 March 2023 and the date of authorization of these standalone financial statements.

24 Financial risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement
Credit risk	Cash and cash equivalent, trade receivables, financial assets measured at amortized cost	Ageing analysis
Liquidity risk	Borrowings and other financial liabilities	Rolling cash flow forecasts
Market risk – Interest rate	Long-term borrowings at variable rates	Sensitivity analysis
Market risk – Foreign currency risk	Cash and cash equivalent, trade receivables,Trade Payable, financial assets, other assets, Financial liabilities and other	Sensitivity analysis

The Company's risk management is carried out by a central treasury department (of the group) under policies approved by the board of directors. The board of directors provides written principles for overall risk management, as well as policies covering specific areas, such interest rate risk, credit risk and investment of excess liquidity.

A Credit risk

Credit risk arises from cash and cash equivalents, trade receivables, investments carried at amortized cost and deposits with banks and financial institutions.

Credit risk management

The finance function of the Company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on-going basis throughout each reporting period. In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 30 days past due. A default on a financial asset is when the counterparty fails to make contractual payments when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

Expected credit loss for trade receivables under simplified approach

Customer Credit Risk is managed as per Company's established policy, procedures and controls relating to customer credit risk management which interalia involves obtaining credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the company grants credit terms in normal course of business.There are two customer accounted for 100% of revenue for 2022-23

The Company expects to maintain this relationship with the customer. We perform ongoing credit evaluations of our customers' financial condition and do not anticipate non-performance by counterparties given their high creditworthiness

B Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

B Liquidity risk (continued)

Maturities of financial liabilities

The tables below analyze the Company’s financial liabilities into relevant maturity groupings based on their contractual maturities for all financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

31 March 2023	Less than 1 year	1 year to 5 years	5 years and above	Total
Non-derivatives				
Borrowings	4,826,470,539	-	-	4,826,470,539
Trade payables	11,422,423	-	-	11,422,423
Lease Liabilities	-	-	-	-
Other financial liabilities	3,201,901,369	-	-	3,201,901,369
Total	**8,039,794,331**	**-**	**-**	**8,039,794,331**

31 March 2022	Less than 1 year	1 year to 5 years	5 years and above	Total
Non-derivatives				
Borrowings	5,893,647,038	-	-	5,893,647,038
Trade payables	20,435,358		-	20,435,358
Lease Liabilities	375,809,244	432,752,136		808,561,380
Other financial liabilities	669,689,788		-	669,689,788
Total	**6,959,581,428**	**432,752,136**	**-**	**7,392,333,564**

C Interest rate risk

The Company’s fixed rate borrowings are carried at amortized cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, 'Financial Instruments - Disclosures', since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company’s variable rate borrowing is subject to interest rate. Below is the overall exposure of the borrowing:

Particulars	31 March 2023	31 March 2022
Variable rate borrowing	4,826,470,539	5,893,647,038
Fixed rate borrowing	-	-
	4,826,470,539	**5,893,647,038**

Interest rate risk

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

Particulars	31-Mar-23	31-Mar-22
Interest rates – increase by 50 basis points (50 bps)	24,132,353	29,468,235
Interest rates – decrease by 50 basis points (50 bps)	(24,132,353)	(29,468,235)

D Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a different currency from the Company's functional currency).

Foreign currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in the US dollar exchange rate (or any other material currency), with all other variables held constant, of the Company's profit before tax (due to changes in the fair value of monetary assets and liabilities). The Company's exposure to foreign currency changes for all other currencies is not material.

	Effect on profit before tax	
USD	**31-Mar-23**	**31-Mar-22**
- strengthened 1% (2023: 1%)	(51,014,761)	(58,323,937)
- weakened 1% (2023: 1%)	51,014,761	58,323,937
EUR	**31-Mar-23**	**31-Mar-22**
- strengthened 1% (2023: 1%)	(3,279,027)	0
- weakened 1% (2023: 1%)	3,279,027	0
INR	**31-Mar-23**	**31-Mar-22**
- strengthened 1% (2023: 1%)	(602)	(13,824)
- weakened 1% (2023: 1%)	602	13,824

The below table presents foreign currency risk from non-derivative financial instruments as of March 31, 2023 and 2022

Particulars	**As at Mar 2023**			**As at Mar 2022**	
	USD	**EUR**	**INR**	**USD**	**INR**
Trade receivables	378,949	-	-	1,534,095	-
Cash and cash equivalents	691,210	-	-	302,139	-
Other assets	4,495,702	-	-	440,171	-
Lease Liabilities	0	-	-	(1,218,484)	-
Loans, borrowings and bank overdrafts	(9,078,847)	-	-	(9,202,775)	-
Trade payables and other financial liabilities*	(5,892,516)	-555,822	-9,125	(644,431)	-164,056
Net assets/ (liabilities)	**(9,405,502)**	**(555,822)**	**(9,125)**	**(8,789,285)**	**(164,056)**
Exchange Rate	**542.39**	**589.94**	**6.60**	**663.58**	**8.43**

i. The management assessed that the fair value of cash and cash equivalents, trade receivables, loans, other financial assets, trade payables, borrowings and other financial liabilities approximate the carrying amount largely due to short-term maturity of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company has measured investments in equity shares of subsidiaries and joint ventures at the deemed cost. The Company has considered the carrying amount under previous GAAP as the deemed cost.

ii. Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active markets for financial instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or

Level 3: unobservable inputs for the asset or liability.

Measurement of fair value of financial instruments

The Company's finance team performs valuations of financial items for financial reporting purposes, including Level 3 fair values, in consultation with third party valuation specialist for complex valuations, wherever necessary. Valuation techniques are selected based on the characteristics of each instrument, with the overall objective of maximizing the use of market-based information.

Investment in Debentures and preference shares

The fair values of the debentures and preference shares are estimated using a discounted cash flow approach, which discounts the estimated contractual cash flows using discount rates derived from observable market interest rates of similar bonds with similar risk.

Notes to the Financial Statements
(Amount in CRC, unless otherwise stated)

26 Capital management

For the purpose of the Company's capital management, capital includes issued capital, additional paid in capital and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company monitors capital using a gearing ratio, which is net debt divided by total equity as below:

Particulars	Note	As at 31 March 2023	As at 31 March 2022
Borrowings	Financial liabilities	4,826,470,539	5,893,647,038
Finace lease liabilities	Financial liabilities	-	808,561,380
Less: Cash and cash equivalents	Financial assets	522,536,002	234,786,408
Net Debt		**4,303,934,537**	**6,467,422,010**
Equity share capital	Equity	1,200	1,200
Other equity	Equity	(4,956,082,434)	(4,798,126,765)
		(4,956,081,234)	**(4,798,125,565)**
Gearing ratio		**(0.87)**	**(1.35)**

In order to achieve the objective of maximising shareholders value, the Company's capital management, amongst other things, aims to manage its capital structure and makes adjustments in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the current and previous years.

27 Comparatives
