

# Wipro CSR Programs & Projects

CSR Programs	Projects
<p><b>Education:</b> Our work in education is driven by the belief that education is a key enabler of social change to create a better society. We engage in deep and meaningful systemic work in the area of school and college education. In parallel, our focus is on access to education for socially disadvantaged sections, with distinct attention on children with disability.</p>	Education : Systemic Reforms
	Education for Under Privileged
	Education for children with Disability
	Sustainability Education (Earthian)
	Higher education for skills building
	Engineering Education
<p><b>Urban Ecology:</b> We engage with the community on issues of Ecological Sustainability. Given the predominantly urban nature of Wipro's operations, significant focus is on issues of urban ecology.</p>	Ecology - Biodiversity
	Sustainability Advocacy & Research
	Ecology - Water
<p><b>Community Care:</b> We support disadvantaged and/or underserved communities that are proximate to our facilities, on the issues of education for children, including children with disabilities, primary health-care and community ecology. We also work on limited disaster relief and long-term rehabilitation of affected communities due to natural calamities.</p>	<p>Community Healthcare</p> <p>Community Ecology</p> <p>Rural Livelihood Programs</p>
<p><b>Art and Culture and the Urban Public Space:</b> The role of the arts and culture in creating and fostering important human values of social integrity, inclusion, democracy and empathy is well established. One important way of doing this is by creating and preserving public spaces in our cities. The concept of 'public space' here refers to not just physical spaces like public parks or lakes but intellectual and social spaces that are inclusive in spirit. Engaging with urban public spaces is therefore an additional area of focus for us, that we have added as part of our CSR charter from the year 2018 onwards.</p>	<p>Protection of national heritage, art and culture</p>
<p><b>Business Sustainability:</b> We strive towards reducing and minimizing the environmental footprint of our operations and enhancing the biodiversity quotient of our facilities.</p>	<p>Renewable Energy</p>
<p><b>COVID Integrated Response:</b> We worked in collaboration with Azim Premji Foundation to help tackle the COVID-19 pandemic across India since March 2020.</p> <p>We leveraged our partner network for delivery of immediate humanitarian aid. Our healthcare response was broadly pivoted on the augmentation of capacity of the healthcare system.</p>	<p>COVID Integrated Response</p>
